Guillaume Trapet

FULLSTACK DEVELOPER

guillaume.trapet21@gmail.com · +33 7 83 61 80 94 · guillaumetrapet.com · LinkedIn · GitHub

PROFILE

Full-stack developer with 3+ years of professional experience designing and shipping custom business applications end-to-end — from client meetings and architecture decisions to deployment and server maintenance. Passionate about clean code and modern technologies, I thrive in autonomous environments and adapt quickly to new stacks. Currently seeking a position in Japan to bring my expertise to an ambitious team and continue growing in an enriching environment.

EXPERIENCE

Fullstack Developer — **Infofil** *2022 – Present · Full-time · Genlis*

Design and development of tailor-made business web applications for a range of clients — HR management systems, CRM platforms, time-tracking tools, and more. Full ownership of each project: requirements gathering with clients, architecture design, development across a modern stack (Vue.js, React, Next.js, Svelte, Laravel, Golang), testing, deployment, and ongoing server maintenance.

Internship Developer — **Sidel Packing Solution** *April – June 2021 · Corcelles-lès-Cîteaux*

First professional experience in software development. Replaced a legacy PHP library and implemented regression tests to ensure a smooth and reliable transition for the production environment.

Seasonal Worker — **Digioia Royer · Mugneret Gibourg** *Summers 2018 – 2022 · Burgundy*

Seasonal harvest work at two prestigious Burgundy wine estates, reinforcing discipline, teamwork and adaptability.

PERSONAL PROJECTS

Portfolio Website guillaumetrapet.com

Personal developer portfolio built with Next.js, React, TypeScript and Tailwind CSS. Features full FR/EN internationalization via next-intl, server-side rendering for optimal SEO, and a containerized Docker deployment pipeline.

`Next.js` `React` `TypeScript` `Tailwind` `Docker` `i18n`

GitHub github.com/Fulcrum1/Portfolio

Japanese Learning Application learning-app.guillaumetrapet.com

Full-stack SRS-inspired language learning app for reviewing vocabulary, kanji and phrases, with per-user progress tracking. Built as a Turborepo monorepo with a shared component library, dual API backends in NestJS and Go, SSR, and complete FR/EN internationalization.

`Next.js` `NestJS` `TypeScript` `Golang` `PostgreSQL`

EDUCATION

Computer Science Degree (DUT) — **IUT Burgundy** *2019 – 2022*

Two-year technical university degree covering software development, OOP, relational databases, networking, operating systems, and project management. Built numerous real-world applications through practical team-based projects.

High School Diploma — Baccalauréat STI2D *2017 – 2019 · Burgundy*

Technological diploma with a focus on programming fundamentals, object-oriented design, and development of technical solutions.

TECHNICAL SKILLS

FRONTEND
Next.js · React · Vue.js · Svelte · TypeScript · Tailwind CSS

BACKEND
Laravel · NestJS · Golang · PostgreSQL · Docker

OTHER
Turborepo · Monorepo · REST API · SSR · i18n · Git

SOFT SKILLS
Rigorous · Autonomous · Fast Learner · Curious · Adaptable
